TCS Helping with COVID-19 testing

We have partnered with the Government of India's Centre for Cellular and Molecular Platforms (C-CAMP) to scale-up indigenous COVID-19 diagnostic test-kit production capacity to a million test kits a day. Our blockchain-based digital supply-chain platform will help MSMEs expand capacities and meet necessary quality standards.

Zoho Announces Partnership with Tata Consultancy Services

TCS has a business-led approach to consulting and enterprise transformation. Zoho takes the same approach to its technology, offering a vertically integrated platform of leading business applications and services," said Sridhar Vembu, Co-founder and CEO of Zoho Corporation. "We are confident that through TCS' reach and influence in the market across 46 countries, more enterprise organizations globally will experience the benefits of Zoho's deep technology stack and world-class applications.

TCS is saving 1,500 German jobs with just over \$1

TCS agreed to acquire Postbank Systems (PBS), the technology services unit of Deutsche Bank for one euro (\$1.18 or Rs88). With this deal, TCS will salvage around 1,500 jobs, which would have been trimmed as part of Deutsche Bank's restructuring announced last July.

"We are pleased to deepen our long-standing partnership with Deutsche Bank, continue to help accelerate their digital transformation, and to acquire market specific capabilities in the banking domain," N.G. Subramaniam, chief operating officer and executive director for TCS

Vacant TCS office Spaces to be used for R&D

By reducing the office-going workforce to 25 per cent by 2025, TCS looks to use the vacant real estate space to house its laboratories and Research and Development (R&D) facilities, besides using it as modern-day workplaces for its employees. not more than 25 per cent of a person's time has to be spent in offices or not more than 25 per cent of people will be required in office at a particular time. TCS was able to switch to a distributed delivery model, with 95 per cent of its 448,000-strong workforce enabled to work remotely, in a matter of days through their new operating model called Secure Borderless Workspaces (SBWS).
